Mail Arrangements. Our Postmaster Mr. MEREILL leaves for Wash ington to-day, to lay before the P.O. Department a statement of the delays and failures which have so often kept back our Mails from the East during the last four months; to point out the cause of these vexations occurrences, and to urge the adoption of some efficient remedy. The West has suffered so much and so continuously from this delay and derangement of the mails that we cannot doubt the Post Master General will cheerfully assent to any measure calculated to cure the evil. Mr. MERRILL intends to ask the Department to instruct the New York Postoffice to make up the bags directly for Milwaukee. This will save the one or two days' delay occasioned by the stoppage of these mail bags, at Chicago and Buffalo, to be overhaultd. He will ask further that Milwankee be made a distributing office. This will bring all Mail matter for Central and Northern Wi-consin to this point, instead of Chicago, for distribution. It is superfluous to say that the distribution can be done more conveniently, correctly and expeditionally at this point, than at Chicago. Mr. Merrill will also press the appointment of a special agent to accompany the mails between N. York, or Buffalo, and this city, and to note and up such an issue, to show that the construction of report when and why they are delayed. It seems to us that these measures, if adopted by the P.O. Department, will certainly have the desired effect, and course the transmission of letters and papers by the mails with the same rapidity and regularity which now attend the transportation of pas-

We published on Monday last a brief accoun of the Rail Road accident on the Southern Michigan Road, the Saturday previous, which cost the lives of the Engineer and Fireman and inflicted upon the Company a pecuniary loss of twenty-five to fifty thousand dollars. We have since heard the full particulars of the disaster from a gentleman who was on the train. Our informant tling of the cor and its sudden stop. Apprehensive that some fatal accident had occurred he jumped out of the car and ran to the front of the train. A fearful spectacle here met his view; the Locomotive off the track, partially buried in a gravel bank; one fireman caught and crushed beneath it; the Engineer held, as in a vice, between the Locomotive and its tender, and fatally hurt, the' sensible and able to speak; and the baggage car, the emigrant car and the first passenger car, broken to fragments.

At the time the accident occurred the train was running at the rate of 30 miles the hour-Not less than 300 passengers were in the different cars, nearly 100 of them in the emigrant car, which was dashed to pieces, and yet not a single one of the passengers was fatally, or even seriously injured. Not so with the unfortunate men employed on the tinin. One fireman escaped with a few bruises, by springing from the Engine as it bounded from the track. The other, with the Engineer, was caught in the wreck and terribly mangled. They both died in greatagony within an hour after the accident. The baggageman had a most providential escape. He was standing on the outer edge of his car, preparing to throw out a small package as they passed the next Station, when the crash came. The motion of the baggage car being checked by running upon the tender, the emigrant car passed through and over it; making mince-ment of its contents, and in its rapid course cutting off the ear and a piece and its lapid course them got the earliest and a piece of the scalp of the baggage man, but without killing him. or course, the trunks, valises, cartaintiest of 1836. This decision will prevent in pet-bags, a.c., of the passengers, with their va- future any allowance beyond actual tare being dents, were utterly destroyed. It was difficult, even, to find or to identify the fraginents.

The accident was occasioned by a switch being turned out of its place. It had not been used for some weeks a was kept locked up. As the lock was found broken and the switch shifted, the inference was that some reckless villain had done it designedly. A man who had sworn vengeance upon the Company for killing his cow, has been arrested on suspicion. It seems incredible that any human being could, in cold blood, commit such an atrocity; perilling the lives of hundreds of this sellow men and property to a very large amount to gratify an insone desire for revenge. Nor is at easy to say what punishment should be meted out to the wretch who could be guilty of such a damable crime.

THE REASON.-We notice that many of our Western Locoloco papers me endeavoring to personade the farmers that they are prospering even under present prices of wheat and flour; and are taying all the blame of low prices upon the failure of the crops. What sort of political economy that is by which a short supply is made to reduce prices, does not occur to us. It seems a new thing under the san. Up to the first of June, the decrease of flour renching the tide water of the Hudson below last year was nearly 300,000 barrels. And yet prices are ruinously low. What else is the reason except that there is no foreign demand at remmerating rates, and by the operation of the free trade tariff our own home demand has been cut off? When that tariff was enacted, we were told that England would increase largely her consumption of our breadstuffs year by year, till it would reach by this year an amount numbered by hundreds of millions. The exports have fallen off annually for three years past ! Still again,and here we quote an able article from the Indiann State Journal :

We were told that we could keep our money a We were told that we could keep our money at home, and pay for foreign goods in provisions and breadstuffs. Not a word of this is said now. But we are informed that gold is a part of our produce, and that it is just as well to send overgold to England to buy British goods—to buy goods, half the value of which is made up by Exagued. ALSH RAISED PROVISIONS AND BREADSTUFFS, and which our farmers are thus compelled to buy with

This is the end of the British Tariff. Its prom-This is the end of the British Tariff. Its promised have failed—wholly, totally—which have been reiterated to our farmers. We are now importing immense amounts of foreign goods, which are paid for with California gold, and our notes in form of United States and other bonds. The country would not have sustained itself, but for the discovery of gold in California. That gold which would have been kept in the country but for the British Tariff, goes to fill the already glutted vaults of British bankers, some of it coming back in loans, for which we give as security the great highways of the country.

in loans, for which we give its scenary the great highways of the country.

Our farmers have been villainously cheated by the operations of the British tariff. They have no gold, they want to send to England to Luy British beet and perk and wheat, used in fabricating British goods, when goods of equal quality and cheapness can be purchased of those who would contract their own beef, pork and wheat, while manufacturing them.

THE FOX RIVER IMPROVEMENT .- The Watertown Register, a "democratic" organ, thus re-bukes some of its party yoke-fellows up Northwho insist upon setting down all the opposition to Mr. Mantin's contract and bill to the score of sectional prejudice, or hostility to the Improve-

While on this subject, we must say, that the charges made by some of the Northern Press, that the south part of the state are opposed to the Improvement of the Fox and Wisconsin, thro' sectional prejudice, comes with a very bad grace, and are wholly unfounded in fact, as far as our information extends. There may be a difference of upinon in regard to the value of the navigation of those rivers, as compared with railroads, for communication at all seasons of the year, but as to any organized opposition to those works, we do not believe it exists, and we must do justice to Gov. Farwell to say that we believe that even he is not actuated by a wish to destroy the interests of our neighbors in the north part of the State.

Of course he is'n't. What other conceivable motive can Governor FARWELL have in the premises than that of doing his duty faithfully, fearlessly and impartially? What has be, or any other man in the State to gain by making war upon the interests of the North?

THE LUMBERMEN AND THE GOVERNMENT.—The Sauk Co. Standard labors through a column and a half, in endeavoring to feed fat the grudge of the lumbermen against the President, because he felt bound to carry out the law in relation to cutting timber on the public lands. Why is there such an effort made to make a party issue in this mat-ter? It would be very easy, if we chose to take the law which brings the pine lands and live oak lands under the same provisions, was made by Locofoco Judges of the U.S. Courts. But we don't care to make any such dispute. The law must be obeyed, so long as it is law, or the penalty suffered. If the construction of the courts is wrong, and the pine lands should be left open to be stripped at the will of the lumbermen, very well; an act of Congress can set the matter right in a moment, and Gov. Doty would serve his contituents well by pushing such an act through.

MILWAUKEE AND MISSISSIPPI RAIL ROAD. -- Spirited discussions are going on in our Western exchanges as to the proper route and termination o this road. We learn that no part of the line West of Rock River has yet been located, nor will it be until a thorough examination of the whole country has been made and the relative cost, advantages and claims of the several routes carefully compared. Meanwhile we take leave to suggest was scated in the third passenger car, and was roused from sleep at midnight by the violent ratrecently did to our Madison neighbors, that they can better and sooner accomplish their object, by taking stock in the road and thus obtaining a voice in the direction, than by criticising or complaining of the acts of those who are devoting all their means, influence and energies to push forward this important work.

BACKING ONE'S FRIENDS .- The Wisconsin, which alls itself a "democratic" paper, and is a great tickler for party usages and regular nominations, has the following consolatory paragraph on the abject of the recent Baltimore nomination :-

The Captain Scott (Virginia) Correspondence no doubt defeated all the old candidates. It garroted them all. Frusk Pierce, who was nominated, had at least deferred his letter, for it was not to the complete of the control of the con published previous to the assembling of the Convention. These famous letters should be a memorable lesson to every politician, not to dive to rention. These minutes interes smouth to dive too rable lesson to every politician, not to dive too low, when they desire to obtain Plesidential favor. Had not Gen. Cars written his last letter, he would have had at least a majority of the Convention. We are very much surprised that Douglass was caught in the Scott trap.

If any of these "garroted" candidates had obained the nomination, the Wisconsin would have een the first to proclaim his transcendent claims and qualifications. As it is, they are of no account

IMPORTANT DECISION .-- We learn from the National Intelligencer, that a decision of vast importance to the commercial interests, has been re-cently made by the Supreme Court. The court decided that the 58th and 59th sections of the act of the 2d March, 1799, as regards rates of tare and tariffact of 1846. This decision will prevent in made in estimating the quantity subject to duty of any weightable article, and the allowance of 2 per cent on liquids for prospective leakage will also be disallowed, but any leakage during the voyage of importation will still be subject to dection from the dutiable value.

WATERTOWN AND PORTLAND PLANK ROAD .-- WE are glad to learn that the Directors of this Company have mised the necessary means to complete their road and will have it all graded, planked and ready for use by the 1st of October next. It is in fact, an extension of the Milwaukee and Waterlown Plank Road 12 miles beyond Watertown and to a point-within 21 miles of Madison. .- We believe the Madison folks are at work to fill this ntervening gap.

The Milwaukee and Watertown Road is now loing a handsome business; averaging some \$600 week in tolls, and earning for the stockholder it the rate of twenty per cent per annum.

Four years ago, the last Whig National Convention assembled at Philadelphia, and was organized by the choice of Gen. Morchead, of N. C., as President, with a complement of Vice Presidents and Secretaries. The Convention then preceded to ballot for a Whig candidate for President, with the following result. We copy from our schedule marked as the votes were given, but we may have somewhat confused it by matching afterward thereon the results of the subsequent ballots. Welland Cayal-Reduction of Tolls,-The Oswego Palladian says that the President of the Board of Works, Canada, the Hon, John Young and H. H. Killaly, Esq., from Montreal, on their way to an official visit of the Welland Canal touched at that city on Wednesday, and announced to some of the merchants there, that the Board of Works had considered the subject of Welland Canal tolls, and had decided to revise and reduce the taiff, and that the revision would be published

at an early day. " AID AND COMFORT."-The Detroit Free Press opies and chuckles over, an article from the Philadelphia Sun, a "Native American" organ, which rehemently opposes the nomination of WINFIELD Scott, for the Presidency. We extract a portion of this "Native American" protest, as well to show the animus of the writer, as to hold up to the country the motives and character of the allies y whose help Loco Focoism hopes to defeat the

MAINE FOR SCOTT!-The Whigs of Maine held heir State Convention at Portland on the 3rd instant, and like their brethren of New Jersey made choice of an unanimous Scorr Delegation to the Whig National Convention. George Evassand WILLIAM PITT FESSENDEN were selected as the

two Delegates from the State at large. STEAMERS FOR THE SOUTHERN MICHIGAN R. Line.—The steamers Golden Gate and Baltic, which have been chartered by the Southern Michigan Rail Road Company, to ply between his city and Chicago, are expected here to-day and will at once commence their trips. This will be great addition to our travelling facilities and will give a new impulse to the business over the

Southern Michigan Road, BETTER "TIME" COMING.—The Albany Argus tates that the managers of the Hudson River and Albany and Buffalo lines of railroad contemplate an arrangement by which they will forward passengers between New York and Buffalo in 14 hours. This would make the time between New York and this city only a little over two days.

Wisconsin Tobacco.—Mr.? I. W. Hibbard, a substantial Farmer of Troy, Walworth County, sold five tons of tobacco in this city yesterday, to a New York buyer for \$5 per civit. The tobacco was raised on Mr. Hibbard's farm in Troy and pays a good profit. Mr. H. has another good crop on the ground.

Circuit Count.—The Chancery docket will be called to-day, for the last time during the present term. To-morrow, at 10 A. M., Judge Hubbard, will pass sentence upon the prissuers, McDonald and Connatority, convicted of murder, Lawson, of rape, and Connatority, convicted of murder, Lawson, of rape, and Connatority, convicted of murder, Lawson, of laye been alive with teams, loaded up with mer chandize and emigrants for the interior. One waggon that we noticed yesterday, had on a full load of household traps and piled on the top of the se, a family numbering 16 persons, of whom 3 only were adults.

Tor Buffulor.—The staunch steamer Globe, Capt Practs, lawes our port for Buffalo this evening, at \$5 0'clock, from Higby's pier—through in three days. For herths, tickets &c., apply to H. K. Janony, next to the corner of Main and Huron Streets.

GAS,-Mr. Barringer, who represents Mr. Lock GAS.—Mr. Barringer, who represents Mr. Lockwood and his associates, the company to whom has been granted the privilege of creeting Gas Worksin our city by the Town Council, has arrived here for the purpose of presenting the matter to our citizens for their consideration. This company propose to construct works and fixures that will cost about \$50,000, on a scale sufficiently commensurate for all the anticipated wants of the town for a long period to come, introducing many improvements, also suggested by past experience over any which have yet been erected.

These works have paid a handsome income on the investment in all the cities where they have been introduced. We have been informed that in Madison they have realized already at the rate of 15 per cent, and calculated to increase it to 20 per cent, by laying some additional pipe.

ties were in the desired positions, and of the signal being given the attack commenced. Each life marked his victim with unerring precision—the pistol and the knife completed the work of destruction and revenge, and in a few brief moments all was over. Of the one hundred and fifty Indian that constituted the ranchenia, only two of three escaped, and those were supposed to be dangelously wounded; so that, probably not one of those engaged in the murder of the unfortunate Anderson now remains alive. Men, women and hildren all shared the same fate; none were spared except one woman and two children, who wore brought back prisoners.

The Acknew at West Point.—The annual examination of the Military Academy at West Point was begun on Wednesday last by the Board of Visitors appointed for that purpose, and the day was marked by appropriate exercises. Col. S. C. Hammond, of S. C., was appointed President of the Board, and Professor A. Caswell, of R. I., Secretary. The various departments of this complete and extensive military institution, were visited and examined, and displayed an order, elegance and cave highly creditable to those intrusted with their management, and reflecting honor upon our government. Several hours were devoted to the scrutiny, and the fine library and gallery of paintings, the well-ordered drawing and ted to the scrutiny, and the line library and gal-lery of paintings, the well-ordered drawing and recitation rooms, the extensive barnecks and baths all testified to the governing influence of exact science and just symetry. The trophies of victo-ry in the Mexican war, embracing numerous ban-ners and cannons, were appropriately interspersed with the insignia of American valor. The mornwith the insignia of American valor. The morning's duties were closed with a brilliant parade by the Cadets, and a review by the Examiners.—
As far as the examination had extended, great proficiency in scientific and practical learning is exhibited, and the educational system is c idently carried to a high point of excellence.—Buffalo Commercial.

CAUTION.—The Doylestown Intelligeneer pub lishes the following warning to newspapers, which they will do well to heed:

A few days ago a post master in our county returned several copies of each of two of our county papers, to the postumeter here, containing such handbills, with directions to prosecute the publishers of the papers for the penalty of five dollars for each paper so mailed, as directed by law. He stated that the subscribers to the papers who otherwise were entitled to receive them, free, referred to make the papers who otherwise were entitled to receive them, free, referred to make the papers with the papers. fused to pay letter postage which the law imposes on them in consequence of their containing the handbills, and in compliance with the law intermed them to the place where they were insided, with directions to prosecute the sender for the

We asknowledge all his merits as a soldier, but he is too full of self-conceit, too stubborn and too much puffed up with the pride of piace, to be entrusted with the eight of government. He is too cravenly subservient to foreign influence; has been too insulting to the American born volunteers in Mexico, and his nomination will introduce into the election a bitter religious element, which must be deplorable in its results.

Prospects.—The season has now so far progressed, that the farmers can judge with considerable certainty of the prospects before them. The cold weather in the early part of the spring did some damage to the wheat crops, but now they look well and promise to yield a rich harvest. The weather for two or three weeks past, has been delightful and remarkably favorable for crop. The farmers have been delayed in their spring work by the long continuance of cold wet weather, but should it continue pleasant for the rest of the season, the farmers will suffer very little from this circumstance. The "rural districts," present a cool and animated appearance, about these days.—Othloth Conrier.

Streets and Litingston.—The Whig Convention in the 28th district, composed of Steuben and Livingston, net at Dansville on Thursday. We learn by the Genesee Valley Telegraph that Hon. A. B. Dickinson, of Steuben, was chosen delegate to the National Convention, and Horace Hunt, Esq. of Livingston, alternate. Both are in favor of Gen. Scott, and a Scott resolution was passed by the convention.

As was anticipated, New York will be represented at Baltimore by a delegation almost unanimously in favor of Scott. Including the two delegates at large, yet to be chosen, he will probably have 30 of the 35 votes.—Rochester Dem.

STRAM SHIPS.—Eight steam ships sail from this port to morrow, viz., the Humboldt, for Havre; Great Britain, for Liverpool Crescent City, for Aspinwall; Northern Light, for San Juan; Benjamin Franklin, for New Orleans; Roanoke, for Richmond; Union, for Charleston, and Florida, for Savannah. Woot.—A centiement engaged in the business of manufacturing Woolen Goods in four it Co., N. Y., publishes an ecompanication in the Utica Gazette, in which he accounts for the present low price of wool. He states that of over 300 setts of woolen machinery that three years ago were at work making broadcieth, only thirty-four sets are now used for that purpose; some are burned, others burst up, and others a work or other fairless. On the whole, the writer says that one-third of the woolen mechanicay of the country is now deep and, unless wool should decline 11 to 12 cents a pound from the prices of last year, one-third more will be idle in less than six months. The price of labor in the mills is already reduced to the lowest motel; contourly of every sort has been carried to the extreme of meanness, and unless the farmers can be made to suffer in the value of wool, the manufacturer must stop. So great is the importation of fortign cloths under the present triff, that American wool growers and manufacturers must succumb.

Ketchum & Comstock, HATTERS, 202 Main Street, Buffalo. We would respectfully call the attention of our many friends, and the public generally, to an in-terment we have recently imported from Paris,

"Conformateur,"
from which the above cut was taken. By it we can take the exact shape, and uneringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this irrenious contrivance, this very great annoyance is done away; as the Hats are made to it perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat to call and leave an impression of their head; and all those who take pleasure in witnessing the inventions of this curious instrument.

Having adopted the Cash System (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the experience low price of \$4.25; surpassing any \$5 if fat add in this diff. "Conformateur," consider to seet the best Sik that made, at the extreme low price of \$4.25; surpassing any \$5 Hat sold in this city. Our Hars are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident resurrance, they are all we recommend them to be. We invite all who do not wish to pay two profits upon a Hat, and are willing to save 25 per cent, to call and see Orders at Whotesalz filled at the lowest New York manufacturing prices.
